📍 [Pune, India](#)

Results-driven IT professional with 4.5+ years of experience in application development and DevOps, specializing in building scalable, high-performance applications and automating deployment pipelines. Proficient in full-stack development, cloud infrastructure (AWS), CI/CD (Jenkins, GitHub), and containerization (Docker, Kubernetes).

Strong expertise in Agile methodologies, infrastructure as code (Terraform, Ansible, Vagrant), and monitoring/logging tools (Prometheus, Grafana). Passionate about optimizing development workflows, improving system reliability, and delivering robust software solutions.

Experience

AWS DevOps Engineer

[Urbanfox Turnkey Solutions Pvt Ltd](#)

May 2024 - Currently

- Built Jenkins pipelines from scratch for 5+ microservices, enabling 50+ weekly deployments
- Integrated Git workflows with automated testing, reducing failed deployments by 30%
- Deployed and managed AWS resources (EC2, S3, VPC) using Terraform, cutting provisioning time by 40%
- Automated configuration of 50+ Linux servers using Ansible playbooks
- Dockerized 3 legacy applications, improving deployment efficiency by 35%
- Assisted in managing Kubernetes clusters for staging environments
- Implemented Prometheus/Grafana for system metrics monitoring
- Configured Splunk alerts for critical application errors.
- Developed Python/Bash scripts to automate routine maintenance tasks
- Created Vagrant environments for consistent developer setups

Senior Executive

[VOIS \(Vodafone\)](#)

Nov 2022 - April 2024

- As a developer worked on both CRM and BRM modules to build front end and configure the new plans for BRM side.
- Collaborated with stakeholders to gather requirements and establish a clear understanding of desired outcomes for each project.
