Alankar Shete

AWS DevOps and DevSecOps Engineer

Visit Portfolio

alankarshete09@gmail.com +919270231582 Linkedin Github Pune, India

Results-driven IT professional with 5 years of experience in application development and DevOps, specializing in building scalable, high-performance applications and automating deployment pipelines. Proficient in full-stack development, cloud infrastructure (AWS), CI/CD (Jenkins, GitLab), and containerization (Docker, Kubernetes). Strong expertise in Agile methodologies, infrastructure as code (Terraform, Ansible, Vagrant), and monitoring/logging tools (Prometheus, Grafana). Implemented DevSecOps best practices with Trivy, Sonarqube, GitLeaks scan, etc. Passionate about optimizing development workflows, improving system reliability, and delivering robust software solutions.

Experience

AWS DevOps and DevSecOps Engineer
Transcript Technology Global Infotech Pvt Ltd *Aug 2024 - Currently*

- Integrate various tools across Pipeline stages such as SonarQube, OWASP, Trivy as per requirement
- Performed security checks for vulnerabilities on application using OWASP Dependency checks
- Container Image Vulnerability detection using AquaSec Trivy
- Created Terraform & ARM template for provisioning AWS Infrastructure such as VM & private EKS cluster.
- Implemented secure secrets management, access policies, and credential rotation to protect sensitive infrastructure data with Hashicorp Vault.
- Good Experience with User & Group Access Management in AWS DevOps for Organization & Project Scope.
- Performed various PoCs and provided Coaching Services to the Clients as per their CI/CD Project requirements to achieve good DevSecOps approach.
- Experience in using GIT and Jenkins to create a Maven Build jobs for continuous integration.
- Experience in automating CI & CD pipeline using Jenkins for all build and deployments.
- Configured SonarQube for source code analysis.
- Configured Nexus Repository for deploying the Artifacts.
- Experience in writing playbooks for deployment in Docker Container using Ansible.
- Experience in creating Docker Images using Docker file
- Good knowledge on Ansible Playbooks and YAML Scripting.
- High-Level knowledge about Kubernetes.
- Implemented Prometheus/Grafana for system metrics monitoring
- Configured Splunk alerts for critical application errors.
- Developed Python/Bash scripts to automate routine maintenance tasks

Senior Executive
_VOIS (Vodafone) *Nov 2022 - April 2024*

- As a developer worked on both CRM and BRM modules to build front end and configure the new plans for BRM side.
- Collaborated with stakeholders to gather requirements and establish a clear understanding of desired outcomes for each project.

Developer
Nexora Technologies *Sep 2021 - Nov 2022*

- Build various projects with MERN stack, React, NodeJS, Express, and MongoDB with team collaboration.
- Worked on salesforce project, have depth understanding of SOQL, APEX, Lightning Web Component.
- Created various android and IOS applications with React Native
- Wrote technical blogs on topics like JS execution and core vanilla JavaScript topics.

Education

MBA in Project Management
D.Y. Patil Vidyapeeth , Pimpri, Pune — *2024 - Persuing*

B.E. in Information Technology
D.Y. Patil Collage of Engineering, Pune — *2019 - 2022*

Diploma in Computer Engineering
Jaihind Polytechnic, Pune — *2016 - 2019*

Skills

Programming Languages	JavaScript, React, Node, Next, Java
CI/CD Pipelines	Jenkins, Github Action, GitLab-CI/CD
Infrastructure as Code (IaC)	Terraform, Ansible, Vagrant, Helm
Cloud Platforms	AWS, Azure, Karpenter
Monitoring & Logging	Prometheus, Splunk
Scripting & Automation	Python, Linux (Bash)
Security Tools	OWASP Dependency Check, TRIVY
Code Quality Check Tool	Sonarqube
Artifact Management Tools	Nexus

Training / Courses

- AWS Certified Solution Architect- Associate
- Docker and Kubernetes Masterclass: From Beginner to Advanced by Packt
- DevOps by nana
